Out of the Light.

Communicated.

Out of thel ight and into the gloom
We all may be ushered soon
Better to prepare at the dawn of life
Than to await the approach of eternal night.
Through death's shadow we are compelled to go
For the Great Creator has decreed it so
Accept salvation as it offered to you,
Then you will fear no evil but walk boldly thro'.
A soul that on Jesus doeth rely
Shall rise with rejoicing to meet Him in the sky,
When beyond earth's attraction will be happy and free,
As did the children of Israel when they had crossed the Red Sea.

—By William H. T. Powell.

Presidential Love Affairs.

One married abroad.

One married a divorced woman.

Cleveland was oldest married—at 49.

Three presidents were twice married.

Four married clergymen's daughters.

Three became engaged while at school.

Johnson was married at 18.

Mrs. Cleveland was the only White House bride.

Tyler's wife was 35 years younger than himself.

Dolly Madison was the youngest presidential wife.

The Automobile Line.

Merely to show what an unlikely story the article published in the Wednesday morning papers concerning an automobile line for Greensboro is, the following facts are given. An automobile sufficiently large to carry the number of passengers mentioned, twenty-five, would weigh several tons, and about the time it got out on Walker avenue in winter, it would be in mud up to the hubs. In addition to this, it is a fact that Edison's storage battery has never been put on the market, and the likelihood is that it will not be put there in the next year.

Have it in for Greensboro.

The Winston people seem to have it in for Greensboro. Only a few days ago a report was sent out from there that an automobile line was to be established here, and yesterday an account of Dr. E. W. Smith's marrying a sixteen-year-old runaway girl was printed. The automobile line is a fake, and Dr. Smith says he doesn't marry sixteen-year-old runaway girls.

Court Adjourns.

Court adjourned this afternoon and Judge Council will probably leave for his home tonight. The adjournment is so soon because of the death of Judge Council's father-in-law.

DEATH IN A MULBERRY TREE.

LIVE WIRE ENDS CHILDREN'S PLAY WITH TRAGEDY.

Charles P. Musson, Eleven Years Old, Instantly Killed by Electric Railway Feed Wire.

In the presence of his little sister, Charles P. Munson, the eleven-year-old son of Poynton W. Musson, a letter-carrier, living at 3401N street northwest, was electrocuted while picking mulberries about 10:45 o'clock yesterday morning, near the home of his grandfather, Mr. C. E. Cornwell, at Harlem, west of Georgetown. There was a family reunion in progress at the grandfather's house, and young Musson accompanied his moth , father, and other relatives to the place early in the day. With his sister Mabel, eight years old, the lad went to the mulberry tree soon after they arrived at Harlem and the little girl was on the ground picking up the mulberries thrown by her brother when the accident occurred.

Harlem is on the line of the Great Falls Electric Railroad, a short distance west of the Foxhall road. The wire which carried the deadly current passes through the upper branches of the large mulberry tree. It is a "feed wire" and heavily charged, so as to supply current at various points along the railway, which does a large excursion business at this season of the year. Until yesterday little or no attention was paid to the wire which is supposed to be insulated and would not be noticed under ordinary circumstances. The tree must have been swayed by the wind, and the branches rubbing against the wire removed the insulation.

Young Musson probably came in contact with the bare copper of the cable at one of these worn points and the entire voltage passed through his body, producing instant death. He did not utter a sound. The boy had just thrown a number of mulberries to the ground and his sister was gathering them. All at once she noticed that no berries fell, and, glancing upward, she saw the rigid form of her brother caught in several limbs. He did not move. She called several times, but received no response. She thought he was trying to tease her and climbed upon the fence to touch his foot. She then noticed a long scar on her brother's forehead, and, without knowing exactly what had happened, ran to the house to notify the family.

Mrs. E. B. Douglas, an aunt; Frank Calvin, of Catletts, Va., and Mr. Dyer, the latter two being painters employed in the neighborhood, ran to the tree and lifted the body of the lad to the ground. Life was then extinct. Other members of the family continued the feast, which was being served in honor of the twenty-first birthday of one of Mr. Cornwell's sons, and gathered around the still form. The mother at first thought her son had only suffered a sun stroke, and was about to apply water to revive him, when she opened his little hand and saw two deep wounds extending to the bone. The imprint of the wire was easily seen on the boy's hand and forehead.

From the position of his body when found it appears that his head touched the wire first, and that he received the wound on the right hand while trying to extricate himself.

Sergt. Hess was notified and sent a message to the coroner, who permitted the body to be removed to the city by Undertaker Wise. The remains are now at the home of the parents of the deceased. An inquest will be held at 11 o'clock tomorrow morning at the Seventh precinct police station. The funeral will take place at Oak Hill Cemetery at 2 o'clock tomorrow afternoon and services will probably be held in the cemetery chapel. The boy attended the third grade at Addison School, and was an exceedingly bright little fellow. His father has been a letter carrier about thirteen years. Many neighbors and friends called at the O street house last night and expressed sympathy with the parents, who were prostrated by the tragedy.

During the afternoon employes of the railroad company visited the scene of the accident and rewrapped the fatal wire. Coroner Nevitt started an investigation, which was still under way last night. He visited Harlem and studied the situation of the tree and its relative location to the wires and tracks of the railway.

THE CONVENTION ADJOURNS.

MR. W. A. HEMPHILL IS ELECTED PRESIDENT.

A Committee Will Investigate the Nicaraguan Canal and Report to the Next Meeting, Which Will Be Convened in Memphis.

By Wire to The Telegram.

Philadelphia, Pa., June 14. —The Southern Industrial Convention adjourned this afternoon after electing W. A. Memphill president, vice Hardgrove resigned. Senator Morgan, of Alabama, was made chairman of a committee of senators of each Southern state to investigate the Nicaraguan Canal and report to the next meeting at Memphis in December. The tariff revision will be investigated.

MILLION DOLLAR FIRE.

West Baden Spring Hotel Goes up in Smoke.

By Wire to The Telegram.

Chicago, June 14.—A long distance telephone message from French Lick Springs, Indiana, says: West Baden Baden Mineral Springs hotel near here, was destroyed by fire this morning at 1 o'clock. The guests of the hotel are now streaming into this place in their night clothes, having walked here in bare feet. When the fire got foothold it spread like a powder flash. Everything was destroyed. The guests could not save even their clothing. The scene was one of wildest excitement. Women rushed to the balconies which surrounded the hotel on all sides and jumped to the ground. Those who occupied inside rooms rushed down stairs. Many were trampled under foot or almost choked by the smoke, and many fainted in the excitement.

The hotel contained 700 rooms. Nearly all the leading fighters trained there. No lives were lost, though many had narrow escapes. The owners had just refused a million dollars for the hotel.

OUR NEW POSSESSIONS.

Great Work for the Preacher and the Teacher in These Islands

Nashville American.

There are in Porto Rico, Hawaii, and the Philippines a total of about $7,000,000 Catholics. There are over 10,000,000 Catholics in the United States. The Total number of Catholics under the Amercian flag is in the neighborhool of 18,000,000--more than twice the membership of any other church. There are about 1,500,000 Catholics in Cuba. The Catholic Church in Cuba, Porto Rico, and the Philippines is a very different thing from what it is in this country. There the policy of the priesthood has been set to keep the people in ignorance. With a large per cent of the population the church is not popular and its influence is not strong. The cause of this seems to be the conduct of the Spanish priesthood, who ruled through fear and ignorance. The Catholic religion is perhaps best adapted to the Filipino and the Cuban, and that religion, in any event, will always be strong among them. But there is also opportunity, an inviting field, for Protestant workers in those islands. Under the changed conditions Protestantism, which never had a foohold before, which was not even heard of, will find plenty of material to work on. The Catholic church will also be improved; there will be higher order of priesthood; it it to be hoped, and a disposition to educate and enlighten the natives. The schoolmaster will strengthen Christianity in those islands, and this government will see to it that th schoolmaster is provided. Those island have been under Spanish and Catholic control for over three centuries, and behold their condition! They will advance and improve more in a decade of American rule than they did in the centuries of their previous history. There is a great work in those isands.

Patience is unraveled hope.

Even a small barber can be called a strapping fellow.

You can't always tell just what bound to happen to a fool till something else does.

Probably the greatest pleasure most of the women will get in heaven will be hanging over the walls watching the men in the other place rubber.

Opportune Bargains.

This sea- of the year ladies buy more Corsets than at any other time. We offer you the opportunity of buying a new Corset at Half Price. About 250 of the following well known makes: R. & G., Dr. Warner's and Thompson's Glove Fitting, now on sale at our store and remember we are selling them at half price.

J. M. HENDRIX & CO.

These Corsets will not be sent out on trial, but exchanged or money refunded if not satisfactory.

In Luck.

Scotland received ten millions from her illustrious son, Carnegie. We would like to be able to do as much for the people of this town; since it is impossible we can do the next best thing by giving values no better than the best, but better than the rest. We have some special values we are offering in Soaps.

Harvard Student Killed at a Fire.

Cambridge, Mass., June 1.—H. S. Bigelow, of Buffalo, a freshman at Harvard, was instantly killed by a chemical engine of the Cambridge fire department tonight. A fire was found among a pile of boards near the Harvard architectural building by one of the Harvard professors. An alarm was sent in, but before the firemen responded Profs. Hollis and the students had put out the fire.

The alarm caused the undergraduates to assemble, and as the firemen drove up there was much jeering. The chemical engine was very late, and the crowd hooted the men. The accident is described differently, the firemen claiming that the horses on the engine became frightened at the howling crowd and dashed forward, scattering the crowd. The students claim that the driver, John Dowlis, deliberately drove his engine into the crowd of students. Bigelow was caught under the wheels, and other students were knocked down, but only one had any injury to speak of. As soon as the students realized what had happened they made a wild demonstration. But cool heads maintained control and the firemen were allowed to return to their stations.

Mutual Life Takes Female Risks

New York, June 12.—For some time past the Mutual Life Insurance Company of New York has been making no distinction between male and female risks. It now insures women whose applications show them to be desirable risks on exactly the same terms as men More than that, hereafter the sexes are to stand on an equality in getting employment in all the offices of the company.

WORLD'S RECORD BROKEN.

The Illinois is Now Our Fastest Battleship.

Boston, Mass., June 12.—With the proud distinction of being the fastest battleship in Amercia and the speediest of her class in the world, the new sea fighter Illinois lies at anchor in President's Roads tonight after a most successful trial.

Over the government course from Cape Anne to Cape Porpoise and return a distance of 66 nautical miles, she raced today under the watchful eyes of United States naval representatives and established a new record by maintaining an average speed of 17.31 knots for four consecutive hours.

Not only did she demonstrate that she was faster than any war ship of her size afloat, but she proved her ability to turn upon an enemy with extraordinary quickness by describing a complete circle within 300 yards, or a little more than twice her length, in three minutes and ten seconds, while ploughing through the sea at full speed.

Steadiness and reserve power characterized the performance of the ship throughout the severe test. The work of her engines was smooth and even, and the records of the day showed but one-tenth of a knot difference in speed between the northern run and the return. The machinery easily met every requirement, and not an accident of any kind marred the success of the day.

Rear Admiral Sampson, who was aboard unofficially, and Rear Admiral Evans, who acted as president of the Trial Board, as well as the other neval officers who participated in the trial, were thoroughly pleased with the new champion, and as she steamed back to her anchorage with a broom at her masthead the officials of the Newport News Shipbuilding Company, whose three years of labor had reached such a happy climax, were enthusiastically congratulated.

ALL CONDITIONS PERFECT.

The vessel left the upper harbor, where she had been anchored since her arrival here on Monday, soon after 8 o'clock, and made her way slowly towards Glocester. All conditions were perfect for a sucessful test of the big vessel. The sky was clear and bright, warm sunshine bathed the battleship as she pressed her way towards Cape Ann. A light breeze from the northwest cooled the heat of the summer day, and gave a clear atmosphere.

Rearl Admiral R. D. Evans was in charge of today's trial as the head of the Government's Board. The other officers of the Board are: Captain C. S. Train, Commander N. H. Hemphill, Commander Charles O. Roelker, Lieutenant Commander Richard D. Vreeland, Lieutenant Commander Richard Henderson, Commander Washington Lee Copps. Many prominent naval officers and leading men in other departments of government, political and business life, were guests of the Newport News Company, on board the ship.

The Illionis is a sister ship to the battleship Alabama. Her keel was laid in 1897. Her displacement is 11,525 tons, her contract speed 16 knots, and her horse power 10,000, and her armament consists of four 13-inch breech-loading rifles, 14 6-inch rapid fire guns as a main battery, and 16 6-pounders rapid-fire, six 1-pounder rapid-fire, 4 colts and 2 3-inch rapid-fire guns as a secondary battery.

Food Chokes a Child to Death.

Washington Post.

Coroner Nevitt was called upon yesterday by the District Health Department to investigate the death by strangulation of Ruth Genevieve Ridgely, a two-year-old child, at the home of her parents in Southeast Washington. After an interview with Dr. Carraher, of 182 E street southeast, and the parents, Dr Nevitt came to the conclusion that the little one met death through an unavoidable accident, and gave a certificate accordingly.

The child was the little daughter of Mr. and Mrs. Bernard E. Ridgely, of 1018 K street southeast. The father conducts a grocery store at the corner of Eleventh and K streets southeast, and the little one was popular among the children of the neighborhood. The accident which resulted in death occurred shortly after noon on Monday The family was gathered around the dinner table, and the child, then in apparent good health, was eating potatoes and meat. Some of the food lodged in the throat and produced strangulation. The little girl choked and coughed for about ten minutes, during which time her mother was using every endeavor to render assistance, while the father hatened for a physician. Death resulted before the arrival of Dr. Carraher.

The girl who has one beau too many is annoyed by a stir-plus.

FALSE REPORT.

It has been reported over town that we are going to leave Greensboro. We desire to impress on the minds of one and all the fact that we are not going to move from the city, but have moved to rooms over J. M. Hendrix & Co's. store, 225 South Elm street and will devote our entire time to the eye and proper correction of all optical defects. We are better prepared than ever to give strictly first class services to all having eye troubles, or headache due to refractive errors.

Respectfully,

DRS. R. L. MOORE & R. W. WOODWARD.

Successors to Drs. R. L. and E. H. Moore.

SELECT FOR YOURSELF.

When you come here for lunch or dinner, you have a wide range for selection—the nice things which tempt the appetite and sustain the body. You ought to try our 25-cent meals and see if they are not the best you ever tasted.

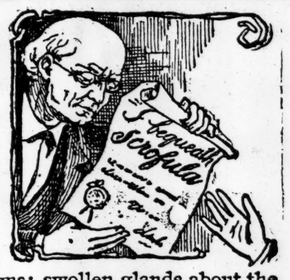
Scrofula



Scrofula is an unwelcome legacy, but one which the children of blood poisoned parentage must accept, with all its humiliating consequences. It is an inheritance that makes one poorer; that brings wretchedness and disease instead of health and riches, for the child whose ancestral blood is tainted with Scrofula or the loathsome virus of Contagious Blood Poison is unfitted for the arduous duties of life so long as any of the transmitted poison remains in its veins. Scrofula manifests itself in various forms; swollen glands about the neck and throat, catarrh of the head, weak eyes, hip bone disease, white swelling and offensive sores and abscesses are familiar symptoms, attended usually with loss of strength, poor digestion and pale or bloodless complexion. The skin is sometimes most dreadfully affected, eruptions breaking out on all parts of the body. Scrofula destroys bone, tissue and flesh; no part of the human system escapes its withering, benumbing touch. Parents whose blood is poisoned by their own misdeeds, or who themselves may be suffering for the sins of some remote ancestor, must restore their own blood to its normal purity and strength, or they cannot expect healthy, robust children. S. S. S. cures Scrofula, like other diseases of a deep-seated, constitutional character, by restoring life and purity to the profoundly poisoned blood, and the rich, strong blood that is carried to the swollen and diseased glands absorbs and destroys the tuberculous deposits, and the painful, disfiguring sores and other evidences of Scrofula disappear.

When nineteen years old, and about one year after the birth of my first child, the glands on the left side of my neck began to swell. Four of the places were lanced and became open running sores; risings came under my left arm, and the discharge was simply awful. The doctors said I had the worst case of Scrofula they had ever seen. I took iodide of potassium, but this nor the other drugs given for this disease brought relief. When the physicians advised me to have the glands removed, I decided to try S. S. S. A few bottles cured me completely; no signs of the terrible disease are left.

MRS. RICHARD WASSON,
Golden Corners, Ohio.

S. S. S. should be begun immediately upon the appearance of the first symptoms, or where there is a known predisposition to Scrofula. Our medical department will be found of great help to those who are struggling with this wasting disease of heredity or any other blood trouble, and we invite you to write us. Should you or any member of your family need advice, our physicians will cheerfully give the information you desire, for which we make no charge. Book on Blood and Skin Diseases free.

MORE THAN A MILE A MINUTE.

Union Pacific Fast Mail Makes a Record Run in Nebraska Between Grand Island and Omaha.

A record run through Nebraska was made by the Union Pacific fast mail, which covered the 153 miles between Grand Island and Omaha in 150 minutes. The time was ten minutes under the best previous score. The speed was made possibly by perfect weather and the faultless operation of the huge locomotive. The train left Grand Island behind time and took a 60-mile leap at the outset. West of North Bend the train was covering 70 miles of prairie an hour, and this side of that town reached the 80-mile mark for some distance. The mail drew into Omaha on time at 5:40 o'clock, having made as rapid a long-distance run as any train ever accomplished in the west.

That Minstrel Joke.

A man who went to a minstrel show in New York Saturday night fell in a fit after hearing one of the jokes and was taken in an unconscious condition to a hospital. Isn't it about time, asks the Chicago Record-Herald, to have the minstrel show joke made a criminal offense?

French Submarine Boats.

France has 14 submarine boats built or completing, and eight more projected.

MAXIMS OF C. P. HUNTINGTON.

The great secret of success is lying by a nest egg and adding to your little store, never spending more than you make, and being strictly economical.

False pride is an enormous obstacle. I know young men in New York who would not carry a trunk along Fifth avenue for all the frontage they could pass, because they would be afraid that they might meet some girl they knew.

Another principle I have constantly obeyed is "business before pleasure." The chances are as good to-day as they were—they are even better. But I do not think that the life of one who has accumulated a hundred millions, more or less, is in the least inspiring. It dazzles, it bewilders the struggling youth. It may inspire him for a time, but that inspiration soon wears off.

Appreciate the value of to-day. That's my advice to young men. It has been my rule through life—I am nearing the century mark now—not to look forward, for the future is a blank. To-day is the all-important issue. I have never gone against the tide nor worried while my schemes were maturing. A farmer sows a field of wheat. To worry over it would merely sap his energy. The wheat requires his attention at the harvest.

In my mercantile life I have noticed the man who arrives at his post on time and not one minute later, and who leaves on the minute and not one second later. He does no more than he has to do and does not do that well. Then there is the man who arrives ahead of time and works late if need be. He takes an interest in his work and is anxious to be advanced. I have always lived within my means and always strived for advancement.

When I was a boy on my father's farm in Connecticut I worked hard, utilizing every moment, for there was plenty to do. But if I had any spare time I did chores for the neighbors. I never wanted for anything I needed! I always got it. But many buy things they do not need. When I went to New York in 1836 I had quite a sum of money, the result of my savings, judicious investments, and little tradings about the neighborhood.

Woman's Life....

is hard enough as it is. It is to her that we owe our world, and everything should be made as easy as possible for her at the time of childbirth. This is just what

MOTHER'S FRIEND

will do. It will make baby's coming easy and painless, and that without taking dangerous drugs into the system. It is simply to be applied to the muscles of the abdomen. It penetrates through the skin carrying strength and elasticity with it. It strengthens the whole system and prevents all of the discomforts of pregnancy.

The mother of a plumb babe in Panama, Mo., says: "I have used Mother's Friend and can praise it highly."

WORKING NIGHT AND DAY.

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. Every pill is a sugar-coated globule into energyngotl heisnesvP ed globule of health, that changes weakness into strength, listlessness into energy, brain-fag into mental power. They're wonderful in buildingup the health. Only 25c per box. Sold by C. E. Holton, druggist.

Pale Weak, Run-down Overworked Women

half sick, nervous, tired out with household and maternal cares, constipated, liver torpid, with blotched, muddy, sallow complexions, blood thin and impure, need building up and a thorough renovation of their systems. This is the time you need such a great nerve and stomach builder as

LAXAKOLA

the great tonic laxative. It gently moves the bowels and thus removes the cause, and acts directly upon the liver and kidneys, keeping them active and strong, while its marvellous tonic properties clears the complexion, stimulates the liver, quickens the circulation, increases the flesh, brightens the eye; the nervousness speedily disappears, and the entire system recuperates and tones up to a condition of perfect and permanent health.

Laxakola, the great tonic laxative, is not only the most efficient of family remedies, but the most economical, because it combines two medicines, viz: laxative and tonic, and at one price. No other remedy gives so much for the money. At druggists, 25c. and 50c., or free sample of THE LAXAKOLA CO., 132 Nassau Street, N. Y., or 356 Dearborn Street, Chicago.

LAXAKOLA FOR CHILDREN Give the children Laxakola. It is absolutely safe, being purely vegetable, containing nothing of a harmful character. It builds the little ones up instead of debilitating them. It reaches every organ, cleanses and strengthens the liver and kidneys, purifies the blood and makes them hearty and strong. It tastes good. *Children like it and ask for it.*

FRIDAY, JUNE 14.

STATUS OF THE PENNSYLVANIA MINER.

When Henry George, the labor leader and profound political philosopher suddenly died on the eve of the big election in New York, many persons believed that the man who was likely to be the winning candidate for first mayor of Greater New York was dead. George's son, Henry, Jr., was substituted on the independent labor ticket for the dead leader and the vote scattered far and wide. Since then we have been looking to hear something from Henry George, Jr., hoping that he might develop into a man something like his father. He is now writing articles for the Philadelphia North American on the conditon of the anthracite coal miners, and is at Harrisburg, where the Pennsylvania legislature is in session. His picture of the power of money in the legislature of his state and the hopelessness of the cause of the miners is startling, but though long, entirely worth reading to the end:

During the past week I have been in Harrisburg, and have been witness to two things—namely, the snail-like progress in the legislature of some bills in the interest of the anthracite miners of Pennsylvania, a very large, hard-working and poorly paid class of people, and the lightning like rapidity with which the railroad monopoly bills were driven through and signed by the Governor, in the interest of a comparatively small number of men, some of whom hope to grow rich by the sale of railroad franchises obtained through these acts of the General Assembly.

The kinds of bills which the legislators lag over—those asked for by the miners—are in mitigation of the heavy conditions of life of people who, a part of the time,are able to get scarcely more than hand to mouth exisitence—bills which, in the last analysis, are directed against the monopoly powers in th coal regions. This kind of bills which the legislators have passed with celerity have for their purpose the creation of a new batch of monopolies in and about the cities and towns of the state, which shall add a new weight to the huge millstone already fastened to the necks of the masses of the people.

The miners asked for the passage of ten measures. To name them is almost to prove their reasonableness. They are:

1. Increase in the number of anthracite mine inspectors from eight to sixteen, and their election by the people, instead of their appointment in the interest of the operators.

2. All coal taken out to be weighed instead of measured by the car, which has grown larger with the years; the miners to be paid by the ton of 2000 pounds, instead of an elactic ton of three, four and more thousands pounds.

3. Checkweighmen to be elected by the miners, who shall be present at the weighing of the coal.

4. All coal to be weighed before it is screened, thus giving the miner pay for his labor, irrespective of whether his labor brings forth coal or slate.

5. Deputy sheriffs to wear uniforms when called out to suppress a riot.

6. Miners to be supplied with surgical and mdical supplies for use in emergency.

7. Miners' wages to be paid semi-monthly. This is now the law, but a "joker" in the statute makes it practically inoperative.

8. In actions for damages for injuries sustained, bosses, superintendents and foremen to be considered as representatives of the operators, and not co-employes of the persons injured.

9. Employes to be free to join labor organizations.

10. Tax on company stores that will drive them out of business. A law now exists for the abolition of the company store, but the law left a loophole for evasion, and the evil exists in some places in its pritine, "pluckme," glory. A new law is asked to tax it to death.

To any person who knows about miners' matters these requests are perfectly reasonable; and this reasonableness, combined with a desire on the part of the politicians to hold the miners' vote as a mass at the polls, would seem to be potent enough to insure the swift passage of the bills.

But this legislature—or rather the majority in the legislature, for there is a very independent, clear-headed minority—is the unquestioning servant of the political-monopoly combination of this state. It makes promises to the people, but in all questions of privege it is the obsequent slave of the monopolies. Had the miners been content to be as passive as in years past it is safe to say that not a single one of these bills would get through this legislature or, if it got through it would be only in an emascluated form. But the miners had sent some of their ablest leaders to Harrisburg. Some of these men were new to the ways of legislation. especially of the regardless-of-rules, jamming process, and they were deluded for a time. They learned a few things before long, however, and they served notice on the managers in both houses that unless the miners' bills moved with a prospect of passage they would use their influence against some of the measures of particular interest to the legislative majority. I don't pretend to defend their policy as right in principle, but it had the sought effect of bringing there of the bills out of committee and into their readings.

Three of four men govern the legislative and administrative branches of this state government with the c ompleteness of power possessed by the feudal barons who swept down from from their castle fastnesses along the Rhine and pillaged or levied tribute on the surrounding country. Or they may in another aspect be likened to the men who controlled the old rotten "pocket boroughs," which for generations swayed the political and economic policy of Great Britain. The motto on the Pennsylvania crest to be seen in many places in the capitol and executive buildings is "Virtue, Liberty and Freedom," but the motto on the crest—if they have a crest—of Mr. Quay and his associates who are ruling things here must be "Addition, Division and Silence," and their practice is to rush things through with scarcely a pretense of fairness. They are brutal and arrogant in their power. The little minority struggled as hopelessly to get some feature of public benefit and protection ito those railroad bills as a cork might hope to struggle against a wave. The minority stood for monopoly and beat down all opposition.

How long can such things continue? I do not believe long. The tide of thought throughout the country is against privilege, against monopolies. This kind of legislation is against the growing sentiment. It may be that the politcial ring at Harrisburg sees this, and that it is making the most of its present opportunity.

ADVERTISING COMMENT.

By THE HUSTLER.

Messrs. J. M. Hendrix & Co. are offering some big values in corsets—the kind you see so extensively addvertised in the leading magazines. It is a money saving sale—to the ladies.

Messrs. Harry-Belk Brothers Company are now in the midst of their anual clearance sale and doing a fine business. Quite naturally an establishment like this must have lots of remnants, odds and ends at close of the season, which together with large purchases at closest prices, make such a sale possible and so it goes.

Among the many chill cures and preventatives now being offered none is more deserving of merit and popular favor than Sykes' Capsules. This remedy is absolutely guaranteed to make a cure and we don't doubt that it will.

The Gate City Steam Laundry has and increasing demand for their specialty, which is gloss finish in laundering. It is a sight to see their wagons bringing in and carrying out the hundreds of bundles, for its customers, and if the Southern Railway Co's "bad engine" don't run over Maddox, he will lead "the list."

Mr. John M. Dick, the Domestic Finish, all round laundryman, while pleasing the people in his particular line. finds time to do a little profitable farming also. He has two acres sown down in Lucern or Alfalfa, from which he cuts four crops per year, and the first cutting this season will make six tons of the finest hay, at a cost of only $6.50. Last year this same land produced, (besides the usual crop of crawfish), sixteen tons of hay and was sufficient, with the purchase of one ton, to keep his five horses and one cow all winter. Next!

Mayor Suffered 12 Years

with dyspepsia and found relief only in the marvelous remedy

Coleman's Guarantee,

A positive cure for all forms of indigestion and dyspepsia.

What he says: "I have suffered with dyspepsia for past 12 years, have tried various prescriptions and remedies with little or no benefit. The testimonials of well known people induced me to try "Coleman's Guarantee," and it is the only medicine that has given me relief, and I believe it will effect a permanent cure if I continue its use." J. M. CARRINGTON, Mayor of South Boston, Va.

THE SUPERINTENDENT'S REPORT

PRESENTED TO BOARD OF EDUCATION LAST NIGHT.

Shows a Total Enrollment of 1,882 Children During the Year—Vocal Music Should be Taught.

The Board of Education met last night in the office of Mr. C. H. Ireland. The following members were present Messrs. George S. Sergeant, president; C. H. Ireland, secretary; J. R. Mendenhall, W. E. Bevill, and C. M. Vanstory. The superintendent made the following annual report:

NO. 1 WHITE.

Number of pupils enrolled, male, 284; female, 313; total,	597
Percentage of attendance,	.927
Average daily attendance,	426
Number of tardies,	1,726
Number dismissed from daily sessions by request,	848
Number quit before close of session,	166

NO. 2 WHITE.

Number of pupils enrolled, male, 206; female, 225; total,	431
Percentage of attendance,	.925
Average daily attendance,	291
Number of tardies,	964
Number dismissed from daily sessions by request,	249
Number quit before close of session,	104

NO. 3 WHITE.

Number of days taught,	159
Number of pupils enrolled, male, 115; female 117; total,	232
Percentage of attendance,	.889
Number of tardies,	1,643
Number dismissed from daily sessions, by request,	106
Number quit before close of session,	26

NO. 1 COLORED.

Number of pupils enrolled, male, 158; female, 223, total,	381
Percentage of attendance,	893
Average daily attendance,	220
Number of tardies,	692
Number dismissed from daily sessions by request,	192

NO. 2 COLORED.

Number of pupils enrolled, male, 121; female, 121; total,	242
Percentage of attendance,	.833
Average daily attendance.	130
Number of tardies,	826
Number dismissed from daily sessions by request,	61

CONSOLIDATED REPORT

Number of days in scholastic year,	180
Number of day taught,	174

	W.	C.	
School population, ages 6 to 12,	1,801—	1,666—	3,467
Number of pupils enrolled,	1,260—	623—	1882
Percentage of attendance,	.913—	.888	
Average daily attendance,	868—	350—	1,218
Percentage of school population enrolled,	.699 —	.373	

In addition to the statistical report, the superintendent made a report on the work of the superintendent, teachers, and pupils during the past year. He called special attention to the great number of tardies and absences, and discussed with the Board the necessity of securing better attendance during the coming year.

He recommended that vocal music be taught in the public schools by a special teacher, as soon as possible. With this the Board heartily agreed, but felt that they could not undertake it at this time on acount of the cost.

He further recommended the advisability of introducing domestic vised the Board to take the matter into consideration, and make investigations during the year as to what has been done in this respect in the other schools of the State, and as to the results of the same.

During this report there was an informal discussion by the members of the Board and the superintendent as to the best ways and means of increasing the efficiency of the school in every respect.

The schools have one of the best, probably the best, public school libraries in the South. During the year 574 volumes have been added. This is a working library and is of inestimable value to both pupils and teachers.

The following committees were appointed:

Text Books and Course of Study—Mendenhall, Ireland and Vanstory.

Committee on Repairs and Furniture—Bevil and Murchison.

The Board finished the election and the fixing of salaries, and istructed the superintendent to give official notice to those elected as soon as possible.

The work of the past year, notwithstanding epidemics of measles, whooping coughs and grip, has been probably the best in the history of the schools. The schools have been remarkably fortunate in having so many teachers who have been in the schools doing successful work for a number of years. There are very few changes in the corps of teachers from year to year. This, of course, secures more efficient work. Frequent changes in teachers must of necessity hinder the progress of the schools.

TO TEACH SHORTHAND.

Prof. Forney, of the Normal, to Open a Class in Winston.

Prof. E. J. Forney, of the faculty of the State Normal College, will open a class of shorthand students in Winston next Monday. Superintendent Charles F. Tomlinson, of the Winston schools, has given the use of the West End school to Prof. Forney in order that this important branch of education may be taught in that city by a person who himself is a master of the subject. Prof. Forney will be assisted by Mr. Tom Beall of this city.

This is an opportunity the people of Winston will do well to avail themselves of, because Prof. Forney is one of the best posted men in his line in the South.

Since the establishment of the State Normal College in Greensboro Prof. Forney has been at the head of the business department, and during that time he has turned out a number of stenographers, many of whom have now an almost national reputation. Among the more prominent ones who have graduated under Prof. Forney are Miss Rachel C. Brown, of Washington, D C., Miss Kittie Dees, of Boston, Miss Georgie Simpson and LeGrande Cameron, of New York, and Mattie Belo Williams, of Newbern, N. C.

SPECTACLE THIEF.

Caught, Tried, and Sentenced All in One Afternoon.

Last Monday Mrs. Henn Kirkpatrick missed a pair of gold spectacles. Shortly afterwards Chief Scott took a similar pair of spectacles from a stranger, who claimed to have bought them from a negro girl. The negro was located, the spectacles identified by Mrs. Kirkparick, the negro girl caught, tried and sentenced yesterday afternoon.

The girl who stole the spectacles was a witness in the mayor's court, and the case in which she appeared was sent on to court, and as court was then in session, she went over to the court house to testify. While there the spectacles were identified and Officer Alexander immediately proceeded to the court house and nabbed the woman. She was sent to jail.

RUNS LIKE A TOP.

Gasoline Engine Made by the Acme Mill Works.

A Telegram reporter was shown a small gasoline engine this morning, made in the shops of the Acme Mill Works in this city. The engine while a small one, runs like a top, and is free from much of the "banjo" work that adorns so many engines of like make, and renders them liable to easily get out of order. This engine is what is known as a two cycle engine, that is every time it make a revolution it makes a discharge and takes in a frsh charge. Mr. Clymer will probably engage in the manufacture of engines of a similar character.

TO MAKE PROPOSITION.

Banks Requested to Submit Plans to Pay City Warrants.

The Board of Aldermen will hold their regular meeting tonight, and at that meeting it is probable some steps will be taken, looking to a change in the methods of paying the city warrants. The chairman of the finance committee this morning visited the banks in the city, and asked them to make the Board a proposition tonight, similar to the plan outlined in yesterday's Telegram. What the outcome will be is not known, but it is probable that the payment of city warrants in the future will be different from the plan followed in the past.

Unlucky Friday.

Those who have the matter in hand were intending that the work on the street railway should be begun this morning, but the rain prevented, and it will likely begin tomorrow. This prevents any superstitious person from sounding the unlucky croak on account of the job being commenced on Friday.

Three recruits were forwarded from the Greensboro recruiting office last night. They went to San Antonio, Texas.

SAID DR. SMITH MARRIED THEM.

RUNAWAY COUPLE TELL THE STORY IN WINSTON.

Dr. Smith Says He Did No Such Thing—Were They Married at All—The Doctor Says He Doesn't Marry Sixten-Year-Old Runaway Girls.

The Winston Sentinel yesterday afternoon contained the following romantic item:

"A Virginia couple were united in marriage in Greensboro this morning, the ceremony being performed by Rev. Dr. Egbert Smith, at the Presbyterian manse.

"Mr. J. H. Norvell and Miss Louise Smith were the names of the contracting parties. The groom is from Richmond, Va. The bride is a sister of Mr. A. M. Smith, of Elkin, and does not appear to be over sixteen. She is handsome and attractive.

"The couple passed through the city this morning on their way to Elkin to visit the bride's brother. While the groom was telling the reporter about the marriage, the young bride evinced modesty by hiding her face in her hands."

Dr. Smith was called upon this afternoon by a Telegram reporter, who asked for particulars of the marriage, whereupon Dr. Smith stated that the story was very romantic and pretty, but that portion of it which related to him was false. He further added that that he was not in the habit of marrying any sixteen-year-old girl, in such a manner.

The question now arises, were the couple married at all, and if so, why should a misstatement be made as to who married them. If this view of the case be true, the fact that the bride concealed her face during the telling of the story, will be easily explained.

It is probable that the couple were not married at all, but made a misstatement to the Sentinel reporter.

THE POWER HOUSE

Will Likely be Located on East Market Street.

A good deal of talk is being indulged in at the present time by the citizens of Greensboro as to whether or no the gentlemen who recently secured a franchise to operate a street railway are in earnest. This is a natural position for them to take and a natural question for them to ask because of the many failures heretofore. But this time it seems to be a go, and the gentlemen in question are getting ready to begin actual work. In conversation this morning, Mr. Karr told a Telegram reporter that they expected to carry passengers to the Fair next October. When the nearness of the time and the amount of work to be done were mentioned, he said when once they began work they expected to put a large force on, and push it in a hurry. The first track laid will be the one to extend out West Market street, and to the Fair Grounds.

When asked about the lights he said they expected to have them in condition to turn on about September.

As is known, the company's office will be located in the building north of the county court house. The site for the power house, though not definitely decided upon as yet, will probably be on East Market street, opposite what is known as the Brockmann place. About a dozen cars will be in use on all the tracks in the city when the road is completed.

"Our Dog is Dead."

Miss Minnie Morehead, who came from Richmond, Va., a few days ago, to visit Col. J. T. Morehead, brought with her a parrot and a pet dog. The dog has since died, and now Polly tells everyone who comes into the house, that "Our Dog is Dead, Our Dog is Dead." The parrot had heard some one say the words, and now it repeats the statement to all comers.

Doctor's Arrival Postponed.

On account of the illness of one of the principal singers, it has been found necessary to postpone the production of the "Doctor of Alcantara by the pupils of Prof. Clarence R. Brown, until Monday night.

Seats already secured will be good without further trouble to the holder. for the performance Monday night

WEATHER.

Virginia—Unsettled weather with occasional showers tonight and Saturday, light variable winds.

North Carolina—Showers tonight and probably Saturday, light to fresh southeasterly winds.

Greensboro—Highest temperature past twenty-four hours ending eight o'clock this morning 79, lowest 64, rainfall .64.

Our Great Reduction Sale

is the talk of the city and country, growing in favor each day. The prices are so low on all goods and the temptation is so great that people, so to speak, eat 'em up alive. Everything going at a rush.

Special To-morrow

In Shoes, Clothing and Gents' Furnishings, Etc.

All we ask of you is to look through our line. You will find them the greatest sales ever offered in new goods right in season. Those who visit the Cheapest Store on Earth to-morrow will find bargains never before dreamed possible. Unless you have more money than you know how to get rid of you can't afford to miss this reduction sale. Your friends are making good their opportunities, will you meet them at

Harry-Belk Bros. Co.

Try Domestic Finish on Your Shirts.

It will save your linen, because there is not near the pressure to get a domestic as a gloss finish. We figure it will save linen wear 50 per cent. A gloss finish looks flashy, but it has not near the refinement of our dull domestic finish. That is why careful dressers in all large places have domestic finish on their linen.

Dick's Greensboro Steam Laundry,

MERRIMAC HERO HURT.

Boatswain Murphy Has Narrow Escape from Death at Honollu.

Honolulu, June 5, via San Francisco, June 11.—The battleship Oregon arrived here May 30, bound from the Orient to San Francisco.

As she was dropping he anchor off port the chain broke, seriously injuring Chief Boatswain J. E. Murphy, one of the men who helped Hobson sink the Merrimac at Santiago. One leg was broken,and Murphy was dashed against some machinery receiving a dangerous gash on the head.

"Meek and Lowly Potato."

Chicago Record-Herald.

Science has at last raised the "danger signal" over the meek and lowly potato. The chemists have found danger lurking in nearly every edible product of the soil from cauliflower to Boston beans. Time was when everything that grows on a farm, except toadstools, could be eaten with impunity. Farmers' boys who are now merchants and lawyers in Chicago thought nothing of filling their stomachs with apples, walnuts, pawpaws, persimmons, beechnuts, and raw turnips, all on the same day and in addition to the regular ample fare of the farmers' table, and with no disturbance in the abdominal regions.

But chemistry has invaded the realm of dietetics to disturb our gastronomic joys. No matter what the chemists might discover "lurking" in other vegetables, we have felt a comforting security in the thought that nothing but harmless nutrition in the shape of starch and sugar lurked in the meek and lowly tuber which Sir Francis Drake introduced to civilization after one of his voyages to South America. After all other vegetables were crossed off the list we thought we would still have the luscious "Murphy," the dietary glory and strength of the "ruling race."

But now comes a Washington scientist with the announcement that he has discovered large quantities of "solanin" in potatoes, a chemical that is poisonous to the human system. It is claimed by this scientists that 357 soldiers in a battalion of the Austrian army were poisoned a few years ago by eating potatoes in which the deadly "solanin" was present.

It may be, after all, that the Swedish maiden who gathered for dinner the berries from the potato plants instead of the roots had the correct notion of what portion of this vegetable was designed as a food for the human family.

Fought for Twins.

Uniontown, Pa., June 11.—There was a sensation in society here today when Mrs. Lida Nichols Fitzgerald applied to Court for a writ of habeas corpus to obtain custody of her twin boys, seven months old, and with sheriff broke into the house of the nurse who had them in charge and obtained them.

She married Gerald Purcell Fitzgerald in California two years ago, her husband being a wealthy Irshman, who had been an English army officer. He lives on his ranch in California and Mrs. Fitzgerald has been living with her mother here for over a year. The twins were placed with a nurse here to be brought up.

When the mother wanted them yesterday her demands were refused by the nurse, who had received orders to the effect from the husband. She then appealed to the Court and used force effectively. She is the only daughter of the late Judge Nichols, and has always been prominent in society here.

Suicide News to be Suppressed.

Emporia, Kan. June 11.—An epidemic of suicide in this town, culminating yesterday in three attempts, all exactly similar to recent successful suicides, caused the mayor and board of health today to forbid publication of details of suicides or attempts, in local papers. The board is acting on the theory that publication spreads the contagion of suicide by physic suggestion.

Mayor Morse contends that the liberty of the press is secondary to the public health, and is prepared to use force, if necessary, under the nuisance act. All the editors, however, have agreed to suppress details of suicides or attempts until the epidemic abates.

A FRIEND'S ADVICE.

NEW RAYS DISCOVERED.

Render Almost Every Transparent Substance Luminous in Darkness.

Consul General Richard Guenther, of Frankfort, transmits some interesting information concerning the latest rays. In 1895, he says, quoting from a German technical paper, a French chemist discovered rays emanating from the element uranium which possessed properties similar to the Roentgen rays. They were called Becquerel rays, after their discoverer. But while the discovery of Roentgen aroused great interest in the whole civilized world, leading to radical changes in medical diagnosis, the Becquerel rays were only employed in a very limited way in physical laboratories, and an assertion by the French scientist Demarcays that they were not emitted from uranium, but from a new element, made no impression.

Recent experiments by the Berlin high school of technology have proved this assertion—that a new element is responsible for the Becquerel rays—and the interesting fact has been observed that these rays render almost every transparent substance luminous in the darkness.

These rays make it possible to tell genuine diamonds from artificial ones in the dark. This will prove of great practical importance in testing. The experiments have also resulted in obtaining, for the first time, larger quantities of the new element, which has demonstrated that rays emanating from a larger quantity make the air such a conductor of electricity that it is hoped this property can be utilized in wireless telegraphy. Experiments for this purpose are being made in the Berlin institution, but the deepest serecy is maintained concerning them. It is stated that the results will soon be laid before the emperor, which seems to indicate that the discovery is regarded as one of great importance.

AUTOMOBILE NOTES.

The sultan of Turkey has taken to the automobile, and is so pleased with it that he has decorated the inventor of the make he uses.

The young duke of Manchester has distanced all the members of the English nobility who possess automobiles by appearing in a horseless carriage painted a vivid yellow color.

An automobile recently made a trip from Boston to Newport in 247 minutes. The return was made by another route in less than three hours. The distance was 75 miles.

Coke Shampoo & Toilet Soap

makes a rich, creamy and cleansing lather that eradicates the dirt and impurities, gives that indescribable "feeling of freshness" to the scalp. As a skin soap it eradicates blackheads, softens and freshens the skin.

COKE DANDRUFF CURE

The reliable guaranteed cure for all Scalp Troubles. Awarded medals and full honors over all competitors at Paris Exposition. Don't accept substitutes—they are only poor imitations. Sold everywhere.

MILLIONS GIVEN AWAY

It is certainly gratifying to the public toknow of one concern in the land who not afraid to be generous to needy and suering. The proprietors of Dr. King's New Discovery for Consumption Coughs and Colds, have given away oven ten millions trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma,, Chest and Lungs are cured by it. Call on C. E. Holton, druggist, for a free trial bottle. Re gular size 50c and $1. Every bottle guaranteed or price refunded.

BRAVE MEN FALL.

Victims to stomach, iver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness headache and tired, listless, run down feeling. But there's no need to feel like that, Listen to J. W. Gardner, Idaville, Ind. He says: "Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me strength and good appetite than anything I could take. I can now eat anything and have a new lease on life." Only 50 cents at C. E. Holton's drug store. Every bottle guaranteed.

THE BEST BLOOD PURIFIER.

The blood is constanly beig purified by the lungs, liver and kidneys. Keep these organs in a healthy condition and the bowels regular and you will have no need of a blood purifier. For this purpose there is nothing equal to Chamberlain's Stomach and Liver Tablets, one dose of them will do you more good than a dollad bottle of the best blood purifier. Price, 25 cents. Samples free at C. E. Holton's drug store.

If troubled with a weak digestion, loss of appetite, or constipation, try a few doses of Chamberlains Stomach and Liver Tablets. Every box warranted. For sale by C. E. Holton, Druggist.

A SPRAINED ANKLE QUICKLY CURED.

"At one time I suffered from a severe sprain of the ankle," says George E. Cary, editor of the Guide, Washington Va.,"After using several well recommended medicines with out success, I tried Chamberlain's Pain Balm, and am pleased to say that relief came as soon as I began its use and a complete cure speedily followed." Sold by C. E. Holton, druggist.

Mr. W. S. Whedon, cashier of the First National Bank of Winterest,Iowa, in recent letter gives some experiences with a carpenter in his employ, that will be of value to other mechanics. He says: "I had a carpenter working for me who was obliged to stop work for several days on acount of being troubled with diarrhoea. I mentioned to him that I had been similiarly troubled and that Chamberlain's Colic, Cholera and Diarrhoea Remedy had cured me. He bought a bottle of it from the druggist here and informed me that one dose cured him, and he is again at his work." For sale by C. E. Holton, druggist.

A GOOD COUGH MEDICINE.

It speaks well for Chamberlain's Cough Remedy when druggists use it in their own families in preference to any other. "I have sold Chamberlain's Cough Remedy for the past five years with complete satisfaction to myself and customers," says druggist J. Goldsmith, Van Etten, N. Y. "I have always used it in my own family both for ordinary coughs and colds and for the cough following la grippe, and find it very efficacious." For sale by C. E. Holton, druggist.
